9th IAPR - TC15 Workshop on
Graph-based Representations in Pattern Recognition
May 15 - 17, 2013
Vienna, Austria
GbR 2013

9th IAPR – TC15 Workshop on Graph-based Representations in Pattern Recognition

May 15 – 17, 2013

Vienna, Austria

Hosted by:
Pattern Recognition and Image Processing Group
Vienna University of Technology, Austria
PRIP Club

In Cooperation with:

Springer

Sponsored by:

IAPR
TU WEN
Vienna University of Technology
Organization

Co-chairs

Walter G. Kropatsch Vienna University of Technology, Austria
Nicole M. Artner Vienna University of Technology, Austria
Yll Haxhimusa Vienna University of Technology, Austria
Xiaoyi Jiang University of Münster, Germany

Program Committee

Nicole Artner (Austria) Josep Lladós (Spain)
Antonio Bandera (Spain) Bin Luo (China)
Csaba Beleznai (Austria) Rebeca Marfil (Spain)
Isabelle Bloch (France) Jean-Marc Ogier (France)
Luc Brun (France) Marcello Pelillo (Italy)
Wilhelm Burger (Austria) Pedro Real (Spain)
Donatello Conte (Italy) Radim Sara (Czech Republic)
Francisco Escolano (Spain) Christian Schellewald (Norway)
Rocio Gonzalez-Diaz (Spain) Francesc Serratosa (Spain)
Edwin Hancock (UK) Ali Shokoufandeh (USA)
Yll Haxhimusa (Austria) Robin Strand (Sweden)
Xiaoyi Jiang (Germany) Peter Sturm (France)
Dimosthenis Karatzas (Spain) Salvatore Tabbone (France)
Yukiko Kenmochi (Japan) Andrea Torsello (Italy)
Walter Kropatsch (Austria) Antoine Vacavant (France)
Tetsuji Kuboyama (Japan) Ernest Valveny (Spain)
Christoph Lampert (Austria) Mario Vento (Italy)
Cheng-Lin Liu (China)

Local Organizing Committee

Walter Kropatsch
Nicole Artner
Yll Haxhimusa
Elfriede Oberleitner
Aysulu Gabdulkhakova
IAPR Distinguished Speakers

Maria Vento

University of Salerno (Italy)

Title of invited talk:
“A one hour trip in the world of graphs, looking at the papers of the last ten years”

Short bio: Mario Vento is a fellow scientist of the International Association Pattern Recognition (IAPR). Currently he is Full Professor of Computer Science and Artificial Intelligence at the University of Salerno (Italy), where he is the coordinator of the Artificial Vision Lab. From 2002 to 2006 he served as chairman of IAPR Technical Committee TC15 on "Graph Based Representation in Pattern Recognition", and from 2003 as associate editor of the "Electronic Letters on Computer Vision and Image Analysis”. His research interests fall in the areas of Artificial Intelligence, Image Analysis, Pattern Recognition, Machine Learning and Computer Vision. More specifically, his research activity covered Real time Video analysis and interpretation for traffic monitoring and video surveillance applications, Classification Techniques, either Statistical, Syntactic and Structural, Exact and Inexact Graph Matching, Multi-Expert Classification and Learning Methodologies for Structural Descriptions. He authored over 170 research papers in International Journals and Conference Proceedings and serves as referee for many relevant journals in the field of Pattern Recognition and Machine Intelligence.

Herbert Edelsbrunner
Institute of Science and Technology Austria
Duke University (USA)

Title of invited talk:
“Persistent Homology in Image Processing”

Short bio: Herbert Edelsbrunner is currently a Professor at the Institute of Science and Technology Austria and a Professor of Mathematics and Computer Science at Duke University. Furthermore, he is Principal and Director of geomagic, which he co-founded in April 1996. The core of Herbert Edelsbrunners’ research is a combination of mathematics and computer science, always driven by relevant questions in applications. During a past shift from geometry to topology (which are related subjects without clear separation), the group noticed an increase in relevant application questions we could address. These include questions in scientific visualization, structural molecular biology, systems biology, but also geometry processing, medical imaging, and orthodontics. The common theme is the importance of shape and the recognition, matching, and classification of shape. Topology is the area within mathematics whose methods most directly speak to that need. Algorithms and computer software are needed to make mathematical insights useful in applications, which is the motivation to study in topology and also geometry from a computational point of view.

Session 2: Graph Matching  
Chair: Kaspar Riesen

14:30  
**Graph Matching with Nonnegative Sparse Model**  
Bo Jiang, Jin Tang, Bin Luo  

14:55  
**TurboTensors for Entropic Image Comparison**  
Francisco Escolano, Edwin Hancock, Boyan Bonev, Miguel Angel Lozano

15:20  
**Active-Learning Query Strategies applied to select a Graph Node given a Graph Labelling**  
Xavier Cortés, Francesc Serratosa

15:45  
**GMTE: A Tool for Graph for Transformation and Exact/Inexact Graph Matching**  
Mohamed Amine Hannachi, Ismael Bouassida Rodriguez, Khalil Drira, Saul Eduardo Pomares Hernandez

16:10  
Coffee Break

Session 3: Classification  
Chair: Francisco Escolano

16:40  
**A Comparison of Explicit and Implicit Graph Embedding Methods for Pattern Recognition**  
Donatello Conte, Jean-Yves Ramel, Nicolas Sidere, Muhammad Muzzamil Luqman, Benoit Gauzère, Jaume Gibert, Luc Brun, Mario Vento

17:05  
**Adjunctions on the lattice of dendrograms**  
Fernand Meyer

17:30  
**Relevance of graph-based representations in document analysis and recognition**  
TC 10, Josep Llados Canet

18:30  
Walk, Get-Together
Thursday, May 16th

### Session 4: Graph Kernels

**Chair:** Luo Bin

Friday, May 17th

Session 7: Graph Representations, Segmentation and Shape
Chair: Xiaoyi Jiang

08:30  A Fast Matching Algorithm for Graph-Based Handwriting Recognition
Andreas Fischer, Ching Y. Suen, Volkmann Frinken, Kaspar Riesen, Horst Bunke

08:55  On the Evaluation of Graph Centrality for Shape Matching
Samuel de Sousa, Nicole Artner, Walter Kropatsch

09:20  Shape recognition as a constraint satisfaction problem
Aline Deruyver, Yann Hodé

09:45  Gaussian Wave Packet on a Graph
Furqan Aziz, Richard Wilson, Edwin Hancock

10:10  Coffee Break

Session 8: Sets of Graphs
Chair: Andrea Torsello

10:30  Exact Computation of Median Surfaces Using Optimal 3D Graph Search
Zhengwang Wu, Xiaoyi Jiang, Nanning Zheng, Yuehu Liu, Da-Chuan Cheng

10:55  Estimation of Distribution Algorithm for the Max-Cut Problem
Samuel de Sousa, Yll Haxhimusa, Walter Kropatsch

11:20  TC15 Meeting, GbR 2015
12:20  Lunch
Lunch Menu

Please choose between meat and vegetarian dish for each day. You will receive coupons for your selected menus at the registration desk. Each lunch additionally includes daily soup and one beverage.

Wednesday, May 15th

Menu 1 (meat)
“Viennese Schnitzel” breaded turkey escalopeserved with potato salad

Menu 2 (vegetarian)
Potato pancake “Bohemian Style” with sour cream

Thursday, May 16th

Menu 1 (meat)
Beef goulash with butter dumplings

Menu 2 (vegetarian)
Homemade spinach pie with feta cheese and sour cream

Friday, May 17th

Menu 1 (meat)
Pig roast with bacon coleslaw and potato dumplings

Menu 2 (vegetarian)
Baked Emmentaler cheese served with tartar and salad garnishes
Dinner Menu

You have the choice between menu 1 (meat), menu 2 (fish) and menu 3 (vegetarian). A dinner coupon will be given to you at the registration desk.

Menu 1

Chilled cucumber soup with smoked salmon and crostinis

Steak of lamb with a crust of dijon mustard and parsley on potato goulash with lamb salami

Gratinated curd pancakes with vanilla sabayon and ice cream

Menu 2

Chilled cucumber soup with smoked salmon and crostinis

Filet of catfish with stewed tomatoes, olives, capers and lemon sauce, served with salt potatoes

Yoghurt-raspberry mousse with chocolate blinis and rice ice cream

Menu 3

Deep fried sheep cheese dumplings on salad of asparagus

Goulash of chanterelles with potato strudel

Gratinated curd pancakes with vanilla sabayon and ice cream
Important Locations

**Festsaal**
Location of workshop, Karlsplatz 13
TU-Wien, Hauptgebäude
1. Floor (Stock)
Staircase (Stiege) I

**Wieden Bräu**
Lunch
Waaggasse 5

**Entler**
Workshop dinner
Schlüsselgasse 2

**Lecture hall EI 7**
Talk of Donald E. Knuth
Ground floor
Gußhausstrasse 27-29

All locations of our workshop are located in the 4th district of Vienna (1040).
